

*My Mission is to create methods that will enable practitioners to balance thousands of frequencies in a thorough, effective, and powerful way. Programs save practitioners time and resources allowing them to elevate health and serve on a greater scale.*

**Protocol**– This comprehensive proprietary protocol is the recommended first step of your physical healing journey. Many world-renowned doctors have shown the world the devastation parasites, worms, fungus, heavy metals, chemtrails, and Epstein Barr can cause. I believe along these same lines, eliminating these culprits from our body is the desired first step. Eliminating invaders of our body not only makes sense but also sets the stage for more intensified healing. The good news is the body can reclaim sovereignty by cleaning up its system.

Note: The protocol outlined below is not intended to be a replacement or substitute for other forms of conventional medical treatment.

*The Protocol is available as a complete set*

*(10 programs +2 bonuses) or as individual programs.*

**(Full Set-\$900 Individual Program-\$90)**

1. **Detox** – (Tangerine color) Routine detox is very important to one's well-being. This program is designed to detox tissue and cells, along with releasing negative patterns. This detox program avoids healing crisis and supports healing.
2. **Parasites and Worms** – (Yellow) These organisms make the human body their home and rob the person of their nutrients essential for health. Parasites and Worms cause minor ailments along with serious and sometimes life-threatening illness.
3. **Fungus and Molds** – (2 Blue vials) Fungus and Molds are microorganisms called pathogens. Pathogens cause disease by disrupting the body's normal processes and/or stimulating the immune system to produce a defensive response. Example: there are many strains of Candida very common to humans, they manifest differently in each person.
4. **Heavy Metals** – (Lavender) Heavy Metal toxicity is a growing concern. The accumulation of metals in our body can cause serious health issues and disease. We are most familiar with aluminum, mercury, lead, and arsenic. Chronic Fatigue, digestion issues, Alzheimer's/dementia, and immunity issues are a few of the concerns connected to toxicity of metals.
5. **Chemtrails and Morgellons** – (Brown) This program is co-created by Dan Mangum and Sue Keller. Chemtrails (not contrails) are suggested to cause arterial blockages, heart fibrillations, and suppressed immunity. Nano dust, Morgellons, toxic metals, Mycoplasma, Lyme and Epstein Barr viruses have been found in chemtrails. Research is accelerating in regards to harmful effects of chemtrails.
6. **Toxins and Poisons** – (Grey) Poisons and toxins flood our bodies typically faster than we can detox from them. They cause harm when significant and repeated quantities are absorbed, inhaled, or ingested. Some create illness whereas others may lead to death. Many encounter subtle changes in health that may not be realized for years to come as toxins and poisons accumulate.
7. **Staph and Strep** – (Pink) There are over 30 known types of bacterial Staphylococcus. Staph is a type of bacteria that can cause many types of infections and the bacteria is constantly present on the skin and upper respiratory throat. Streptococcal bacterial infections affect various areas of the body, one of the most common being strep throat. It also affects sinuses, lungs (pneumonia), skin, brain (meningitis) and blood.
8. **Epstein Barr** – (2 White vials) This program is co-created by Tim Lippert, Dan Mangum and Sue Keller. Epstein Barr is referred to as a mystery illness as it manifests differently in different people. The Epstein Barr virus is one of the most common virus in the herpes family. The Epstein Barr Virus invades the B cells in the immune system, re-programs them and takes over their functions. It is best known for the cause of mononucleosis, but is associated with cancer, nervous system disorders, lyme disease and autoimmune.
9. **Adrenals, Pituitary, Pineal** – (Red) Adrenal glands produce hormones that help regulate your metabolism, immune system, blood pressure, response to stress and other essential functions. The Pituitary Gland is often referred to as the 'master gland' as it controls the activity of most other hormone-secreting glands. The tiny but mighty pineal gland (third eye, gateway to the Creator) regulates your daily and seasonal biological rhythms, the sleep-wake patterns that determine your hormone levels, stress levels, and physical performance.
10. **Immune System** – (Green) The immune system is found throughout the body and is comprised of tissue, cells, organs and proteins. The role of the immune system is designed to protect against millions of bacteria, viruses, toxins parasites and other threatening invaders. Once it encounters

one of these invaders it triggers an immune response, fights off the invaders, and clears away dead cells.

Dr. Jerry Tennant says our teeth our like circuit boards. When we have trouble with a tooth, root canal, pulled, etc. it switches off the circuit board/energy flow of what that tooth is connected to energetically. People have potentize their toothpaste and mouthwash with added benefits.

**Lyme** – (Lime) Lyme Disease is found in all 50 states. The percentages of people affected continue to rise. Lyme is often mis-diagnosed as other diseases. This Lyme program takes into account Anaplasmosis, tick/spirochete bacterias, cell mutation, and much much more.

**Liver/Gallbladder** – (Red) The liver performs vital functions; processing and storing nutrients, producing substances to aid digestion, breaking down and removing toxins, etc. Liver bile is stored in the gallbladder.
