Allegations of China releasing slow gestation Hemorrhagic Fever at Olympics

<https://www.naturalnews.com/2022-02-14-shock-claim-china-has-released-another-bioweapon-during-the-olympic-games-hemorrhagic-fever-virus.html>

Video of Dr. Li-Meng Yan (formal CCP virologist) discussing virus.

Normally I would ignore allegations of something so blatant that could cause every country in the world to declare war against China, except for one thing, this is Dr. Li-Meng Yan. She is worth listening to. If this is a false flag we are dealing with radionics where we can not do harm by protecting against something that may not exist.

Rates for all versions of Hemorrhagic Fever developed or maintained, or dispersed by China, or anyone else, at any time:

5 Rates, 7 Banks (Hieronymus Style System)

- 1) 71.00-77.50 & 72.00-40.00
- 2) 39.00-53.00 & 42.50-19.00
- 3) 23.75-42.75
- 4) 41.50-31.75
- 5) 37.60-13.25

Here are rates that were known in the past for Hemorrhagic Fever. While these are for fowl there is no danger in balancing them in other animals including humans. Since we do not know what is happening this is a good precaution.
