Who knows what evil lurks in the hearts of men? The Shadow knows!

One benefit of radionics is that in mere hours we can nullify thousands of hours of expensive lavatory work. The enemy cannot keep up with radionics defenses.

**Nullify all man-made/lab-made diseases and biological hazards.** 41 rates. This will not protect against natural diseases such as Smallpox, etc. but we already have rates for those.

## **Monkey Pox**

People have been wearing masks again and self-isolating because of monkey pox. This is not normally of benefit since Monkey Pox is a venereal disease. It normally requires sex for transmittal, however there has been observed cases of dogs catching monkey pox from licking an infected human. Having said that, to catch monkey pox requires transmittal of bodily fluids. The Center for Disease Control called monkeypox rare, mild, slow moving and rarely fatal. About 10 percent of the infected are hospitalized for pain which responds to pain killers. Infection lasts for weeks.

Monkey Pox was never found in the wild. It was discovered in laboratory monkeys in 1958 from an unknown source. For humans to be infected with Monkey Pox it had to be deliberately spread or someone from that laboratory was infected by a monkey. Currently this disease is spreading in the homosexual and bi-sexual communities and there is strong evidence that it's spread is deliberate. A tabletop exercise like Event 201 that predicted Covid-19 was conducted in March 2021 by the Nuclear Threat Initiative and the Munich Security Conference. This exercise was for a variant of monkey pox. The event used a release date of May 15, 2022, which is in fact within a few days of when it was noticed in the public. In addition, the original monkey pox did not spread via homosexual behavior so this version is not natural.

Start with the existing smallpox and nullify rates for monkeypox. If needed new rates will appear. For news on monkey pox trust Dr. Syed Haider

## **Polio Virus**

According to Dr. Mercola, all polio vaccines in the United States use inactive injectable polio virus vaccine that does not spread communally. This version prevents paralysis but not infection. Almost all modern-day polio cases are caused by live vaccine strains. India caused 47,500 cases of paralysis due to their polio eradication campaign using live viruses in 2011. New York City announced that polio virus has been found in wastewater samples. Not a surprise since there are international visitors who have taken the live virus vaccine. Do not drink NYC sewage water.

Polio was eradicated in 1979 in the United States. Since that time all cases of polio was caused by the vaccine itself, normally administrated outside of the USA.

How to defend yourself against anything. If it is free, beware. If television, radio and media are promoting it, beware. Consider not being first in line while keeping an open mind.

### **Rumors of Snake Venom**

There have been rumors of snake venom in the vaccine. Then there were rumors of snake venom DNA/RNA in the vaccine. All natural living things on this planet share about 90% of it's DNA with all other things. Even things like trees. There does not appear to be any actual venom in the vaccine and evidence of venom DNA is moot as it is the directions for a snake to build the venom and not the actual venom. If you use rates to remove snake venom that is not present there is no harm.

### **Rate of Death from All Causes**

The covid-19 vaccine was released approximal December 11, 2020 and there was a 40% increase in "all causes death" in 2021. The US DoD has also announced a large increase of "all causes death" among their almost 100% vaccinated members. The Chinese PLA has noticed this increase in US deaths and indicated that it believes the US DoD may no longer be able to repel an invasion. The Chinese PLA **appears** to have soldiers stationed in Canada, Mexico and Los Angeles waiting for United Nations authorization. Chinese Police stationed in Queens NYC were expelled. Chinese Americans are our friends, not enemies and they hate the CCP. The increase in death of US servicemen does not indicate a decrease in readiness but this does appear to be the way the Chinese PLA is thinking. Keep in mind that the PLA has no experience fighting an actual war and are rubbish on the sea. Their last war was their invasion of Vietnam in which there were no Chinese survivors. Their invasion of Tibet does not count as a war. While US officials blame the covid-19 virus for the increase in deaths there are strong indicators that the increase is due to the actual vaccine when viewing all deaths by cause. Both Russia and China developed actual vaccines using inactivated virus fragments that do not rely upon DNA/RNA modification. (Like all prior vaccines that worked.) Rates of death in these countries are unknown but

believed to be lower with the exception of politically motivated deaths in China. American vaccines are technically not vaccines and may not be legally protected.

According to the US Center for Disease Control 95% of the Americans whose death were attributed to Covid-19 had comorbidities which were significant. Influenza or Pneumonia was 44.2%, Hypertension 18.2%, Diabetes 13.6%, Alzheimer's and Dementias 10.3%, Sepsis 11%, Heart Attacks and a death from a motorcycle accident were also incorrectly coded as Covid-19 deaths.

VAERS (Vaccine Adverse Effects Reporting System) managed by the US CDC and the FDA reports 30,162 deaths and 1,379,435 adverse effects. Some people believe these numbers are low.

### **New Nanobots are not new**

New nanobots have been announced but it turned out these were fragments of already known nanobots. You already have the rates for these bots.

### **Starvation this Fall/Winter for 2 years**

There are strong indicators that someone is going to attempt to starve us this fall/winter. Keep in mind that the government has stockpiles of food that could feed the entire population for years. Google search, "federal caves of cheese" for more information. You should consider stocking food and water, keeping in mind that having and holding onto stockpiles are two different things. Drinking olive oil and coconut oil can sustain life. If you stockpile food, keep it hidden and don't talk about it. Learn which weeds are eatable and nutritious. People lived through the great depression with less.

Here is an Internet link to articles that explains how the Federal Government has passed laws that they can legally steal any food or other goods that they want

from you or anyone else during a “crisis”. After all the politicians can’t miss a meal. If you own expensive wine, drink it now.

### **Opinion (Opinion Only)**

The black hats were winning but now the white hats are. This has nothing to do with Trump but he does appear to wear a white hat. This has more to do with deep state white hats fighting and starting to win and with the black hats fighting within their own ranks. The world is also waking to the evil. The financial collapse of China (ongoing now) is helping the white hats by removing resources from the black hats. China may act like the cornered and hurt animal it is and this could lead to war. Taiwan (ROC) has been preparing for an invasion from China since 1949 (Chen Cheng and ROC MoND). They are well dug in and prepared. Russia is the enemy of the black hats. This fall and winter the black hats attempt to regain control to implement their feudal one world government with them in charge. Many of the high profile black hats will not survive their scheduled execution by senior black hats. Dead men tell no tales and carry no knives. At this time, with the starvation that is planned, the game is about half time with a tied score and advantage to the white hats. There are 2 more years remaining in the game before the black hats in charge are executed. Expect violence, a possible (low) USA civil war that the white hats will win. Damaged cities, starvation, restrictions to travel and information, along with death. The black hats’ hand was moved prior to being ready by incompetence in the lower ranks.

### **Decentralized Defense as a First Mover Advantage “Splinter Defense”**

This edition breaks from the past and pursues a new, hopefully, more productive path. It is not possible to win a war with strictly defense moves. The attacker has all the first mover advantages. We now reserve some of these first mover advantages for ourselves in addition to decentralizing our operations. This type of defense grows exponentially.

Within each host that contains a collection of radionic rates that destroys or otherwise makes moot the attacks embodied in viruses, bacterium and the

chemicals, poisons, parasites, and other entities in the so-called vaccines the following happens:

1. All of those identified beneficial rates are gathered into a thought form called a splinter. (6 rates)

**71.00-48.75, 23.00-82.25, 37.75-41.00, 38.00-35.60, 35.00-46.00,  
38.25-39.00**

2. These splinters are reproduced in the host, without harm to the host, and are shed into the air. (16 rates)

**40.50-42.25, 40.90-57.50, 38.00-82.50, 38.25-90.50, 58.50-9.50,  
49.50-39.25, 19.50-83.50, 24.00-12.25, 30.50-26.50, 20.25-32.90**

3. When a splinter contacts a new body, (does not already have the rates), it enters the body, reproduces and takes effect, curing that person of any attack. (6 rates)

**76.50-54.25, 42.75-72.25, 58.00-78.00, 44.50-62.00, 26.60-89.75,  
62.50-78.50**

4. As soon as possible after the protection of the host body the production of and shedding of the radionic splinters starts with no harm to the host. (16 rates)

**47.75-62.25, 49.75-65.60, 45.50-53.75, 42.50-61.25, 91.50-88.75,  
57.25-47.75, 55.00-94.00, 47.40-56.58, 54.25-53.00, 88.00-58.60**

### **Advise**

Franklin D. Roosevelt may not have been a good president but he was in office during a terrible time and sometimes events shape the man. One of Franklin's most famous attributed sayings was, "We have nothing to fear except fear itself."

He copied that saying from the 16<sup>th</sup> century French writer Michel de Montaigne who stated, “the thing of which I have most fear is fear”.

The Nazi war criminal Hermann Goering, a master of propaganda, was attributed to saying, “the only thing a government needs to turn people into slaves is fear”. He may or may not have said these actual words but during the Nuremberg trial he testified to the same ideas: ‘How did you make the German people go along with all this?’ He said: ‘It’s an easy thing. It’s not anything to do with Nazism, it has to do with human nature. You can do this in a Nazi regime, you can do it in a socialist regime, you can do it in a communist regime, you can do it in a monarchy and a democracy. The only thing a government needs to make people into slaves is fear. If you can think around something to make them scared, you can get them do anything that you want,”

Another quote was, “Think of the press as a great keyboard on which the government can play.”

Finally, Goebbels stated, “There will come a day, when all the lies will collapse under their own weight, and truth will again triumph.” He would know.
